

Panorama ATV adventure

An hour of adventure through lavafields, history and dramatic landscapes

Date: 5. October

Max persons: 20

Time: Departure at 16:00

Return: 19.00 – At the Blue lagoon

The tour

4x4 Adventure welcome you to a fun and exciting Panorama tour. On the tour we will ride through historic lava fields, pass the old harbour area Hópsnes that now serves as a recreational outdoor area with abandoned dramatic shipwrecks and over hundred-year-old foundations from the beginning of Grindavík's settlement that remains unspoiled and protected for a reminder of the old life.

We continue our way through an adventurous and mildly challenging mountain track towards the summit of our ATV trailed Mt. Hagafell where we experience a spectacular 360' overview offering sightings over Blue Lagoon, Svartsengi volcanic crater formations, Mt. Fagradalsfjall, Eldey island and more!

Prepare for the tour: Dress according to weather, sturdy shoes and a hat is always a good choice for Icelandic nature. Bring swimsuit for the chance to dip your toes in the milky blue waters at the Blue Lagoon. We provide overalls, gloves, and all necessary safety gear. Bring swimsuit in case we get back to the Blue Lagoon early to allow you to bathe.
