Date: 5. October

Max persons: 40

Time: Departure at 16:00

Return: 19.00 at the Blue lagoon

The tour

We will take the scenic route towards Gunnhver and Grindavík where 22.10 brewery is located, a brand-new local brewery.

Then our journey leads to Gunnhver to witness the true power of nature. Journey continues to Grindavík where we come to the beer tasting, 22.10 was founded by two friends with great interest in making their own beer. And they did a great job, if we can say so ourselves. We will end our day at the world famous Blue Lagoon where you will have the opportunity to take a dip before the Get-To-Gether.

Prepare for the tour: Dress according to weather, sturdy shoes and a hat is always a good choice for Icelandic nature. Bring swimsuit for the chance to dip your toes in the milky blue waters at the Blue Lagoon.
