The tour

Suðurnesjabær is one of the oldest settlements on the Reykjanes peninsula. A stone-throw away from Keflavik international airport lies the undiscovered area of the old settlement of Rosmhvalanes. Join one of our local guides on a tour through the area, including tourism attractions like Garðskagi and Hvalsneskirkja. Discovering a different take on tourism with our young tourism entrepreneurs, startups and marine specialists, with a little taste of local production in food and beverages.

Prepare for the tour: Dress according to weather, sturdy shoes and a hat is always a good choice for Icelandic nature. Bring swimsuit for the chance to dip your toes in the milky blue waters at the Blue Lagoon.
